ACADEMIC REQUIREMENTS

MSHSAA and TRENTON R-IX SCHOOLS

Statement of Philosophy

Participation in school activities is a valuable educational experience and should not be looked upon as a reward for academic success. Students with low academic ability need the educational development provided through participation in activities as much or more than students with average or above average ability. Activity participation should be for all students making appropriate progress toward graduation and otherwise in good standing.

Based on the *preceding* semester of attendance at Trenton R-IX Schools, students in grades 7-12 **must have earned credit in 80% of the maximum allowable classes**, in which a student can be enrolled, in the semester. If the standards are not met, the following periods of ineligibility will be enforced:

Grades 9-12: The following semester (18 weeks)

Grades 7-8: The following grading period (9 weeks)

During the current semester, students will be monitored each grading period, approximately every 4.5 weeks or 8 times per year (mid-quarter, quarter, semester), to ensure that he or she maintains the same minimum grade standard throughout the school year. Any student who becomes ineligible during the current grading period will be placed on probation until the next grade-monitoring period (approximately 4.5 weeks).

**During the probation, the student may practice the activity but not participate in games, contests, or performances. If at any time during the probation period the student becomes eligible, that student will be reinstated.*

The counseling department will compile a list of students who are falling below the minimum standards each grade monitoring period and give the list to each coach or sponsor.

The head coach or sponsor is responsible for checking the list each grade monitoring period to ensure their participants are eligible to participate.

The student is responsible for contacting the coach or sponsor to ensure the minimum grade standards are being met.

If students are ineligible, it is the student's responsibility to secure the necessary tutoring or assistance to regain eligibility. As soon as the student meets academic requirements, the student regains all eligibility.

The minimum standards do not apply, until the first grading period, for 7th grade students or 9th grade students entering their grade level.

TRAVEL AND TRANSPORTATION

- A. Transportation
1. All travel arrangements will be made by the principal or his designee only after consultation with the coach/sponsor involved. A copy of the schedule will be returned to that individual. Whenever feasible, requests for transportation to events should be made at the beginning of the season.
 2. A list of students and times they will be gone should be turned into the principal's office. As a convenience to the parents, a determination should be made as to the possible time of return.
 3. Student participants must travel on school sanctioned vehicles to out of town events.
 4. Students will return to Trenton immediately following contests unless an event is scheduled for the following day and arrangements have been made for the participants to remain overnight.
 5. Students will ride the bus **BOTH** ways unless the coach/sponsor has given them permission to ride home with someone else. Such permission must be requested by the parent or guardian in a written or verbal statement **PRIOR** to the departure of the return trip unless a parent signs the student out in-person following a contest.
 6. Exception to the transportation rules may be allowed at the discretion of the coach/sponsor in accordance to the rules of the team/activity.
- B. Supervision of participants on buses on trips
1. Each time a bus is used to transport participants to and from activities a coach/sponsor must ride in the bus with the participants.
 2. The coach/sponsor riding the bus is responsible for ensuring the proper behavior of the participants. The participants are responsible for conducting themselves properly at all times.
 3. Any student who does not conduct himself/herself properly is to be disciplined immediately by the coach/sponsor in charge.
 4. All buses will be **left clean** following trips. **This is the responsibility of the coach/sponsor in charge.**
 5. Coach/sponsor will remain at school to supervise students until all participants have secured a ride.

ACTIVITIES INJURY POLICY

There is a growing awareness of the coach/sponsor's liability in injury cases. It is necessary that every precaution possible be taken, first, in assuring the safety and protection of the student, and second, to handle each injury to assure the best care for the student.

The procedures to be followed are:

1. **TREAT EVERY INJURY AS IF IT WAS SERIOUS.**
2. The coach/sponsor should check each injury and determine the extent of the injury. This may be handled by an assistant coach/sponsor or by an individual trained in first aid or traumatic injuries. Instructions should be given to the participant according to the determination of the extent of the injury.
3. Never return a player to a contest if there is any doubt as to the extent of the injury.
4. If the injury appears more serious, then either ask for a doctor or take the participant to the doctor. This may be accomplished by an assistant or the parent of the player.
5. Follow-up on the injury immediately after the game or practice. Further follow-up should be made as long as the injury exists or the participant is absent from the squad or activity.
6. Write a step-by-step account of how the injury occurred, as far as possible, the extent of the injury, what first aid was administered, who administered it, whether the participant was seen by a doctor and whether the parents of the student were there to be informed or were informed at a later time. The report is then filed with the principal on the next day school is in session.
7. If a participant has been injured to the extent that practice or a game has been missed, that student will be required to have written permission from his/her physician in order to return to practice or a game situation. If the physician gives the participant a definite time to be out of practice then this may be used as the written permit to return to the activity.
8. Participants are expected to be a practice to rehabilitate the injury and observe practice, unless written permission from his/her physician requires alternative treatment.

LETTERING PROCEDURE

For the participant to be considered for a letter, the following minimum standards must be met.

MINIMUM STANDARDS

1. Maintain academic eligibility
2. Attend all formal practice sessions
3. Be a good school and community citizen
4. Obey all training and team rules
5. Specific procedures for earning a letter will be determined by individual coach/sponsor.
6. Students must finish the season with the team/activity.

PROCEDURE FOR SUSPENSION OR DISMISSAL OF A STUDENT PARTICIPANT FOR VIOLATION OF RULES

If a student is in violation of any of the rules that could result in suspension from a contest or dismissal from the activity, the following steps will be taken:

1. If the action is initiated by the administration, the principal/activity director will notify the coach/sponsor immediately of the violation.
2. If the action is initiated by the coach/sponsor, that coach/sponsor will notify the principal and activity director of the violation.
3. The coach/sponsor or administrator will notify the student and his/her parents immediately after the determination of a violation that dismissal or suspension will result from the violation.
4. If desired by the parents, the parents, the student, the coach/sponsor and the principal and activity director will meet and confer. The nature of the violation will be discussed and the consequences of the violation will be stated.
5. Parents and students have the right to appeal the decisions of the principal/activity director to the superintendent and through him to the Board of Education.
