

August 2017

Dear Parent:

Ice cream bars and sandwiches are available for the students to purchase after lunch. The cost is 1.00 each. Students who have money in their lunch account will be allowed to charge ice cream to their account with their parent's permission. If your child receives free lunches they are still eligible to charge ice cream to their account with parent permission and IF they deposit money into their account for that purpose. Other students may purchase ice cream by bringing the EXACT amount that day. Please keep in mind that I cannot keep track of how many ice creams a student is allowed to have per week or month.

If you give your student permission to pay for ice cream from the money in his/her lunch account, please sign and return this letter to school.

If you have questions, please feel free to call me at 359-4328.

Thank you,

Sabra Ferguson
TMS Faculty Secretary

My child, _____, may charge ice cream to his/her lunch account if there is money available.
